

zefiro

Tavolino tondo e tavolino ellittico: sono le due forme di Zefiro.
La struttura è in esile tubo di acciaio, e il top in marmo. Per ammorbidire l'appoggio a terra, ma non solo, attorno al traverso di base è avvolta a spirale una stringa di cuoio naturale.
Anche un oggetto minimo, di forma quasi archetipa ed essenziale, può acquistare personalità col cuoio.

Round coffee table and elliptical table: these are the two shapes of Zefiro.
The framework is made of a slender steel tube, and the top is in marble. To soften its placement on the ground, but not only, a spiralling string of natural leather is wrapped around the base crossl. Even a minimal object, of an almost archetypal and essential shape, can acquire personality thanks to leather.

Struttura in metallo verniciato.
Top in marmo.
Piede rivestito con stringa di cuoio Pl.

Structure in painted metal.
Top in marble.
Foot covered with cowhide string Pl.
