

# versilia

Tra queste due arcate parallele, che definiscono i lati lunghi del tavolo, è steso il top: un "nastro" in legno, che si ripiega sui lati corti e crea le nervature di testa. Una struttura solida a ponte, che consente di ottenere tavoli di grandi dimensioni pienamente utilizzabili, poiché le gambe sottili e angolari rappresentano un ingombro minimo, e consentono una libera fruizione dello spazio per le sedie lungo entrambe le campate.

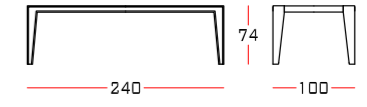

Between these two parallel arches which define the long sides of the table, is the top: a wooden "ribbon", which folds over the short sides and creates the frontribbings. Its solid bridge structure allows the creation of fully usable large tables, since the thin and angular legs represent a minimum obstruction and allows free use of the space for the chairs along both bays of the table.

Struttura in legno multistrato.  
Finiture in essenza.  
Gambe e fasce rivestite in pelle P3, P2.

Structure in plywood.  
Finishings in wood essence.  
Legs and side bands covered in leather P3, P2.
