

tube

Nella collezione di accessori derivati dall'oggettistica "da viaggio", Tube è un cilindro nel quale riporre le cravatte arrotolate. Naturalmente, è un accessorio che trova posto anche nel guardaroba, e non solo come componente della valigeria classica. Un oggetto raffinato per contenuti preziosi, nel solco della tradizione delle custodie di cuoio pregiate.

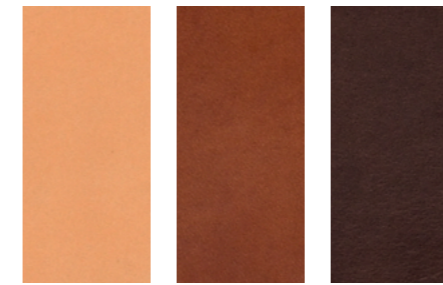

In the collection of accessories derived from "travel" objects, Tube is a cylinder in which to store rolled up ties. Of course, it is an accessory that also finds a place in the wardrobe, and not only as a component of the classical luggage industry. A refined object for precious contents, inkeeping with the tradition of precious leather cases.
