

giulietta

Fin dai primi del 900, la ricca borghesia viaggiava su piroscafi e treni, con i bauli che erano attrezzati con diversi scompartimenti dedicati allo stivaggio degli indumenti, arricchiti da particolari in ottone come chiusure cerniere con ruote per la possibilità di spostarlo agilmente. Nel 21 secolo sono tornati alla moda, non più per viaggiare ma bensì come elemento di arredamento

Abbiamo realizzato un baule per donne di nome Giulietta pensato per il make up con un cassetto e piccoli scompartimenti, per la comodità si trova un puff con una luce led per specchiarsi al meglio, con dettagli e cerniere in ottone, rivestito interamente in cuoietto e ecopelle per una facile pulizia.

Struttura in legno multistrato con interno in pelle sintetica e esterno in cuoietto P3 o pelle P2.

Particolari in cuoietto P3: cassetto con compartimenti, ripiani, scatole portaoggetti, pouf e specchio. Base su ruote. Cerniere e lucchetti in ottone.

Since the early 1900s, the rich bourgeoisie was travelling on steamboats and trains, with trunks that were equipped with different compartments dedicated to the stowage of clothing, enriched by brass details such as closing hinges with wheels to make it easier to move. In the 21st century they returned to fashion, no longer to travel with, but rather as a piece of furniture

We have created a trunk for women named Giulietta, it's intended for make up and comes with a drawer and small compartments, and for your convenience there's a led light to make it easier to look at oneself in the mirror with details and brass zippers, entirely covered in leather and faux leather for easy cleaning.

Structure in plywood covered in synthetic leather (internal part) and thick leather P3 or leather P2 (external part).

Details in thick leather P3: drawer with compartments, shelves, storage boxes, pouf and mirror. Base on wheels. Hinges and lockers in brass.
