

# naviglio

Nata come ideale affiancamento allo scrittoio Naviglio, la madia in realtà è un discreto accompagnamento delle sue linee essenziali: un contenitore basso, che può essere considerato di servizio a uno scrittoio, o a un tavolo da lavoro, o come base per TV, oppure vivere a sé, attrezzato con ante o cassetti.

La struttura è semplice, i volumi lineari, le forme essenziali. Un elemento sottile, quasi solo un foglio di cuoio, piegato a fare un unicum di base, schienale e top: e al suo interno lo spazio del contenere.

Naviglio non ha un "retro", e può vivere a centro stanza o come divisione ideale tra aree diverse.

Una insolita soluzione un ambiente caldo e accogliente, che si tratti di casa o di lavoro.

Born as an ideal addition to the Naviglio desk, the sideboard is actually a discreet accompaniment of its essential lines: a low container, which can be considered as of service to a desk, or a work table, or as a base for TV, or by itself, and it's equipped with doors or drawers.

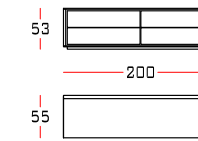

The framework is simple, the volumes are linear, the shapes are essential. A thin element, almost just a sheet of leather, bent to make a unique base, back and top: and inside is the space of containing.

Naviglio does not have a "retro", and can fit in the middle of the room or as an ideal division between different areas.

An unusual solution, a warm and welcoming environment, be it home or work.

Struttura in legno multistrato.  
Contenitore rivestito in pelle sintetica.  
Frontali dei cassetti in legno con finitura in essenza.  
Rivestimento top e schienale in cuoietto P3 o pelle P2 o cuoio P1.
