

victor studio

Questo prodotto nasce dall'unione di due elementi distinti: la base è l'unità funzionale di una madia bassa, Victoria, su cui si appoggia, a sbalzo, lo scrittoio Victor. Caratteristica di questa unione è la libertà di configurazione dell'insieme: infatti, i due elementi non hanno un angolo fisso di montaggio, e quindi possono aprire l'assieme fino a una composizione lineare. La struttura portante dello scrittoio è uno scheletro, come la carena di una imbarcazione. Sopra questo "scafo" si posa la struttura a "ponte" del top. Il tutto poggia sulla madia Victoria.

SCRITTOIO VICTOR
Struttura in legno multistrato e massello con finitura in essenza.
Top sottomano rivestito in pelle P3, P2.
Base rivestita in cuoietto P3.
+
MADIA A PENISOLA VICTORIA
Struttura in legno multistrato.
Top rivestito in cuoietto P3.
Base con finitura in essenza.
Bordatura e parte interna rivestite in pelle P2.

This product comes from the union of two distinct elements: the base is the functional unit of a low cupboard, Victoria, on which the embossed desk Victor rests. What makes this union so distinctive is the freedom of its configuration: the two elements do not have a fixed mounting angle, and therefore can open the ensemble up to a linear setup. The supporting structure of the desk is a skeleton, like the hull of a boat. Above this "hull" is the "bridge" structure at the top. The whole setup rests on the Victoria sideboard.

DESK VICTOR
Structure in plywood and solid wood finished with wood essence.
Top desk pad covered in leather P3, P2.
Base covered in thick leather P3.
+
SIDEBOARD VICTORIA
Structure in plywood.
Top covered in thick leather P3.
Base finished with wood essence.
Edgings and internal parts are covered in leather P2.
