

# brera

Brera è una comoda poltrona direzionale alta, fasciata da una sella curva che avvolge la schiena: al suo interno, si innestano la seduta e lo schienale alto fino a consentire un confortevole sostegno nel poggiatesta.

La sella esterna avvolge anche i lati della seduta, e crea una naturale sporgenza di appoggio delle braccia.

L'interno è imbottito, morbido, accogliente, mentre l'esterno è più asciutto, solido, protettivo: queste due parti possono anche essere finite in materiali a contrasto, che sottolineano la differenza sia dal punto di vista cromatico che al tatto.

Brera is a comfortable high business armchair, with a curved saddle that wraps around the back: its seat and high back are inserted to allow a comfortable support in the headrest.

The external saddle also wraps around the sides of the seat, and creates a natural protrusion to support the arms.

The interior is padded, soft, welcoming, while the exterior is drier, solid, protective: these two parts can also be finished in contrasting materials, which emphasize the difference in color and touch.

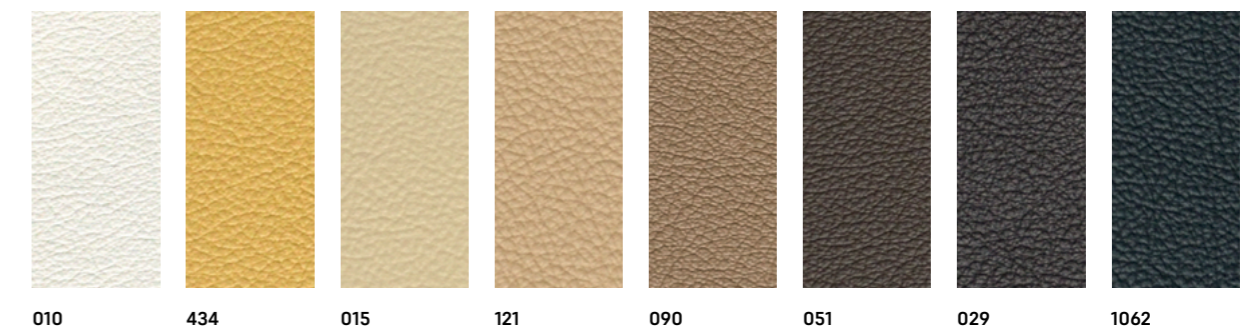

Struttura in legno multistrato.  
Imbottitura in poliuretano espanso.  
Rivestimento in pelle P3, P2, P1.  
Base in metallo verniciato con ruote e meccanismo girevole regolabile in altezza.

Structure in plywood.  
Padding in polyurethane foams.  
Upholstery in leather P3, P2, P1.  
Base in painted metal with wheels and swivel mechanism adjustable in height.
