

fly

La sedia Fly, leggera e elegante, e' frutto di un pensiero complesso volto a ottenere un prodotto dalla linee pulite, dal design contemporaneo e con una elevata ricerca del dettaglio.

Le proporzioni sono studiate per creare un prodotto "esile" alla vista ma solido e ricco di dettagli. La scelta della pelle per la scocca esterna valorizza la sua stessa lavorazione, complessa ed elegante.

Fly , volo, il bracciolo sottile e inclinato all'esterno ricorda le ali. La scocca sottile e lineare si eleva alla vista. La seduta imbottita vuole aggiungere un confort inaspettato in un prodotto cosi pulito nelle sue linee.

The Fly chair, light and elegant, is the result of a complex idea aimed at obtaining a product with clean lines, a contemporary design and high attention to detail.

The proportions are designed to create a product that looks "thin" to the eye but it's actually solid and rich in details. The choice of leather for the outer shell enhances its own manufacturing, complex and elegant.

Fly, the slender armrest is inclined on the outside, evoking wings. Its slim and linear shell rises to the sight. The upholstered seat adds unexpected comfort in a product with such clean outlines.

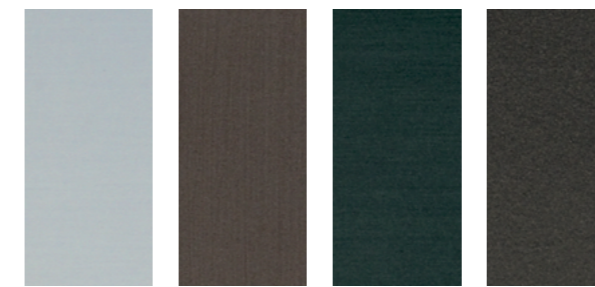

Struttura in legno multistrato.
 Imbottitura in poliuretano espanso.
 Rivestimento esterno in cuoietto P3,
 rivestimento cuscini in pelle P3, P2, P1 o
 tessuto.
 Base in metallo verniciato fissa.
