

dakar

Dakar è il baule dell’immaginario collettivo, l’archetipo del “contenitore da viaggio” la valigia accresciuta fino a diventare armadio portatile.
Ecco in sintesi la vocazione di Dakar: comunicare il suo antico patrimonio formale rendendo insieme utile il suo “contenere”: attrezzato con scomparti, cassetti e accessori moderni, si presenta da chiuso con le finiture e i dettagli della valigeria dell’ottocento.

Dakar is the collective imagination’s trunk, the archetype of the “travel container” the suitcase grown to become a portable wardrobe.
That’s the vocation of Dakar in short: communicating its ancient formal heritage while making its “containing” useful: equipped with compartments, drawers and modern accessories, when closed it comes with the finishes and details of the nineteenth century luggage.
