

mosaico

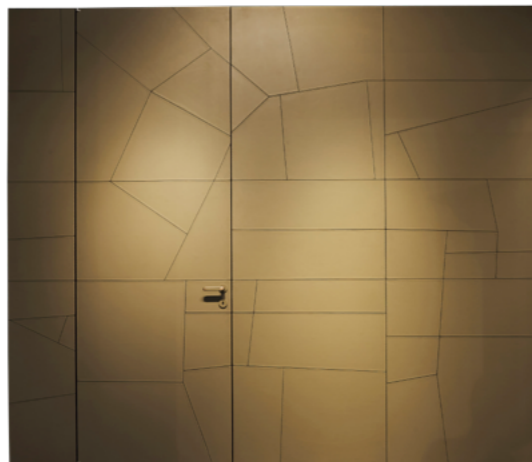

La boiserie Mosaico è nata dall'idea di utilizzare i cascami di cuoietto e di farne un mosaico, a tessere irregolari, rifiniti da una cucitura che contorna ogni frammento, dalla piccola dimensione fino alla parete intera, multicolore o in tinta unita.

I pannelli Mosaico mostrano la bellezza del cuoio anche nei suoi frammenti minimi e senza valore. In realtà il valore c'è, è un valore aggiunto, e sta nella freschezza dell'idea e nella maestria del sellaio che realizza l'opera.

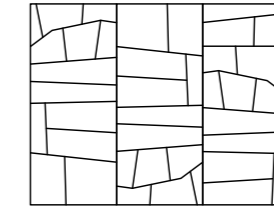

Mosaico boiserie was born from the idea of using thick leather waste to make a mosaic, with irregular tiles, finished by a seam that surrounds each fragment, from the small size to the entire wall, multicolored or plain.

Mosaic panels show the beauty of leather even in its minimal and worthless fragments. In reality, the value is there, it is an added value, and it's all the novelty of the idea and in the skills of the saddler who creates the piece.

Pannello decorativo in fibra di legno nero.
Decoro geometrico in cuoietto P3.

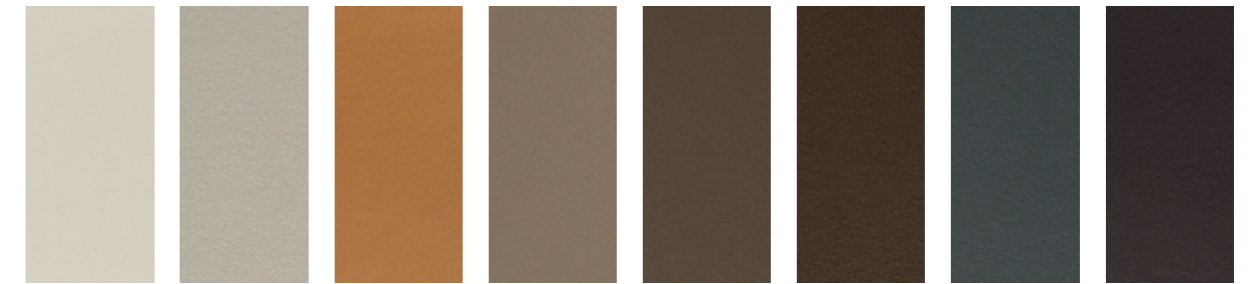

Decorative panel in black wood fiber.
Geometric pattern in thick leather P3.

Sistemi di chiusure (ante/porte) da quantificare su progetto | Locking systems (doors) to be quantified on project.
