

arena

Nella madia Arena la natura e le sue forme sono ancora una volta protagoniste assolute.

Alla pulizia formale della struttura, si accosta il segno stilistico distintivo del progetto: la ricercatezza del prezioso rivestimento in pelle, lavorato manualmente a simulare la struttura vegetale di una corteccia.

Il design apre così nuovi immaginari: una texture materica, curata nel dettaglio, dal disegno fluido, morbido, armonioso, unico in ogni suo pezzo.

In the Arena sideboard, nature and its shapes are once again the absolute protagonists.

The formal cleanliness of the structure is matched by the distinctive stylistic mark of the project: the refinement of the precious leather covering, handcrafted to simulate the natural structure of barks.

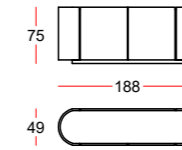

The design thus opens to a new imagination: materic texture, crafted in every detail, with a fluid, soft, harmonious, design, unique in every part.

Struttura in legno multistrato con finitura in essenza

Spalle in legno multistrati curvo
Rivestimento spalle in pelle P1, P2, P3, finitura corteccia o liscia
Top in legno o marmo.
