

# POZZO

Pozzo è una poltroncina "a pozetto", in cui il fusto è una solida struttura a spicchi: di per sé una forma semplice, che permette di modellare forme sinuose e molto robuste a partire da un elemento curvilineo sempre uguale.

Pozzo infatti ha una struttura in compensato curvato, fatto di elementi di per sé semplicissimi, la cui unione trasforma il tutto in un volume eccezionalmente leggero e resistente.

All'esterno, la pelle riveste ogni spicchio sottolineando il disegno a conchiglia dello schienale. All'interno, una conca imbottita crea il nido ideale per accomodarsi in relax.

Pozzo is a "cockpit" armchair, in which the frame is a solid structure with wedges: a simple shape by itself, which allows to create sinuous and very robust shapes starting from the same curvilinear element.

Pozzo actually has a curved plywood structure made of very simple elements, and when joined together, they transforms everything into an exceptionally light and resistant volume.

Externally, the leather covers each segment emphasizing the shell design of the backrest. Inside, a padded basin creates the perfect nest to sit and relax .

Struttura in legno multistrato.  
Imbottitura in poliuretano espanso.  
Rivestimento esterno in pelle P3, P2, P1,  
interno in tessuto.

Structure in plywood.  
Padding in polyurethane foams.  
Upholstery in leather P3, P2, P1, (external  
part) and fabric (internal part).
