

# mosaico panels

I pannelli Mosaico sono nati quasi per gioco: un giorno, passando in azienda, Marina Bani si fermò accanto al tavolo di taglio e raccolse una manciata di cascami di cuoio, risultanti da scarti di altre lavorazioni. La considerazione immediata fu che erano belli, con le loro forme impossibili, i loro angoli irregolari: e soprattutto, accostando tra loro frammenti di colori diversi, acquistavano bellezza, e una forza comunicativa notevole. Da lì l'idea di farne un mosaico, a tessere irregolari, steso su un fondo nero, e arricchito dal lavoro di bordare con una cucitura ogni frammento.

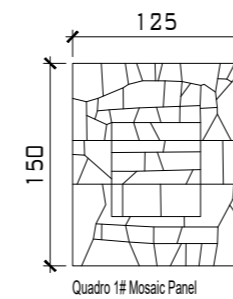

I pannelli Mosaico non hanno altra funzione che quella di mostrare la bellezza del cuoio anche nei suoi frammenti minimi e senza valore. In realtà il valore c'è, è un valore aggiunto, e sta nella freschezza dell'idea e nell'esecuzione dell'opera.

The Mosaico panels came about almost for fun: one day, while she was in work, Marina Bani stopped next to the cutting table and collected a handful of leather scraps, coming from some other production waste. The immediate observation was how beautiful they were, with their impossible shapes, their irregular angles: and above all, that combining fragments of different colors, they acquired beauty, and a remarkable communicative power. That's where the idea of creating a mosaic came, using irregular tiles, laid out on a black background, and enriched by the work of edging each fragment with seams.

Mosaic panels have no other function than to show the beauty of leather even in its minimal and worthless fragments. In reality the value is there, it is an added value, and it's all the novelty of the idea and in the execution of the piece.

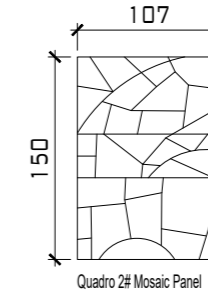

Pannello decorativo in fibra di legno nero.  
Decoro geometrico in cuoietto P3.  
Ganci per appendimento verticale.

Decorative panel in black wood fiber.  
Geometric pattern in thick leather P3.  
Hooks for vertical placement.
