

cocker 2

Un piccolo universo racchiuso in forme essenziali. Cocker 2 non è solo un comodino: è un complice silenzioso della tua intimità, un rifugio discreto per oggetti che parlano di te. I suoi due cassettini, rivestiti in morbido pellame, custodiscono ricordi, gesti quotidiani, piccoli tesori. I pianetti laterali si aprono come ali, accogliendo libri, pensieri, rituali della sera. Il calore del legno incontra la delicatezza dei dettagli, in un equilibrio perfetto tra funzione e poesia. In camera, diventa molto più di un complemento: è presenza, atmosfera, racconto.

A small universe enclosed in essential forms. Cocker 2 is more than just a nightstand: it's a silent companion to your intimacy, a discreet refuge for objects that tell your story. Its two drawers, lined in soft leather, hold memories, daily gestures, and little treasures. The side shelves open like wings, welcoming books, thoughts, and evening rituals. The warmth of wood meets the delicacy of fine details, striking a perfect balance between function and poetry. In the bedroom, it becomes more than a piece of furniture — it is presence, atmosphere, a story unfolding.

Struttura in legno multistrato.
Due cassetti con maniglia in metallo verniciato.
Finiture in essenza e dettagli in cuoietto P3.
