Un prodotto quasi intuitivo tanto vicina è la sua immagine all’archetipo del tavolo da scrittura.

Le parti in cuoietto del piano sono caratterizzate da spessori minimi che rivisitano, con le loro linee curve, il classico “banco” dello scrivano.

Questo piano leggero è sostenuto da una struttura geometrica in tubolare di acciaio, dalle dimensioni contenute, che trova facilmente posto in un angolo della casa.

A product that feels almost intuitive, so closely does its image resemble the archetype of the writing desk.

The leather details on the top feature minimal thicknesses that reinterpret, with their curved lines, the classic "scribe’s desk."

This lightweight surface is supported by a geometric frame made of slender steel tubing, compact in size, making it easy to place in a corner of the home.
