

hexagon

Hexagon è molto più di un semplice rivestimento: è un gesto estetico, un segno grafico che trasforma la parete in una superficie vibrante di ritmo e personalità. Formelle esagonali di grande formato, rivestite in morbida ecopelle, compongono un paesaggio visivo inaspettato, dove il design tradizionale delle boiserie lascia spazio a una nuova espressività.

Ispirato alle geometrie pop e all'armonia naturale dell'esagono, Hexagon nasce per dare libertà alla composizione, creando ambienti che raccontano identità, gusto e visione contemporanea.

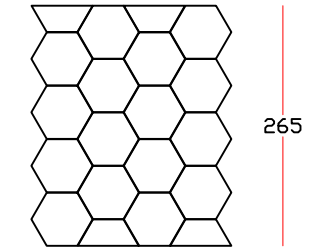

Hexagon is much more than a simple wall covering: it is an aesthetic gesture, a graphic mark that transforms the wall into a surface vibrant with rhythm and personality. Large-format hexagonal tiles, upholstered in soft eco-leather, compose an unexpected visual landscape, where the traditional concept of boiserie gives way to a new form of expressiveness.

Inspired by pop geometries and the natural harmony of the hexagon, Hexagon was created to offer complete compositional freedom, shaping spaces that reflect identity, taste, and a contemporary vision.

Pannello decorativo in legno.
Decoro in pelle sintetica.
Ganci per appendimento verticale.

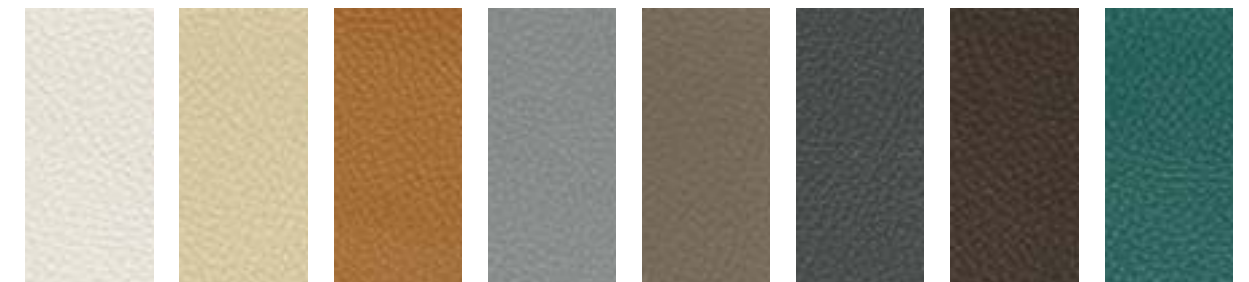

Decorative panel in wood.
Pattern in synthetic leather..
Hooks for vertical placement.

Sistemi di chiusure (ante/porte) da quantificare su progetto | Locking systems (doors) to be quantified on project.
