

plaza

Plaza non è un semplice complemento, ma un baricentro magnetico: un'agorà domestica che invita al dialogo e all'incontro. Come una piazza urbana, organizza lo spazio circostante con un design scultoreo che sposa una funzionalità intelligente. Il suo top aereo, simile a un'ala in volo, si estende con estrema leggerezza sopra un cuore solido e materico. La base, una raffinata "cesta" rivestita in cuoietto cucito a mano, nasconde un ampio volume contenitore per accogliere con discrezione plaid e riviste. Tra contrasti tattili e ingegneria dei volumi, Plaza trasforma il centro del living in un paesaggio ordinato e ricco di stile. Plaza: dove il design si fa accoglienza e ogni oggetto trova il suo posto ideale.

Plaza is more than a mere accessory; it is a magnetic center—a domestic agora that invites dialogue and connection. Much like a city square, it organizes the surrounding space with a sculptural design that marries intelligent functionality. Its airy top, reminiscent of a wing in flight, extends with effortless lightness over a solid, tactile heart. The base—a refined "basket" upholstered in hand-stitched hide leather—conceals a generous storage volume to discreetly hold throws and magazines. Through tactile contrasts and masterful volume engineering, Plaza transforms the center of the living room into an orderly landscape rich in style. Plaza: where design becomes a welcome, and every object finds its perfect place.

Top in legno multistrati e legno tamburato finito in essenza.
Box contenitore in legno laccato nero, rivestito in cuoietto P3, con cuciture in contrasto.
